

CAREER OBJECTIVES

Detail-oriented Developer with 2 years of experience specializing in building responsive interfaces with React, Next.js, and JavaScript alongside customizing robust Zoho ERP architectures. Proven ability to connect fluid client-side experiences with Node.js and MongoDB REST APIs to optimize business processes. Seeking a full-time role to deliver web applications and technical automation solutions.

WORK EXPERIENCE

ERP Zoho Developer - TSK for Consulting Mar 2026 - Present

- Engineered a business-critical CRM-to-Books integration pipeline eliminating processing backlogs and modernizing data synchronization workflows.
- Automated cross-platform data flows for Sales and Purchase Orders, slashing manual data entry errors by 40% and drastically accelerating team processing speeds.
- Redesigned core CRM modules utilizing Zoho Canvas and Blueprints, increasing lead-to-deal conversion speeds by 15% via streamlined user navigation workflows.
- Wrote complex Deluge logic and Client Scripts to enforce data integrity, saving company teams over 10 hours weekly in manual data validation.

Contact Center Agent - SAIB Bank Sep 2024 - Mar 2026

- Managed 85+ daily high-priority customer interactions while maintaining real-time data entry pipelines with extreme detail-orientation.
- Collaborated across cross-functional bank departments to resolve complex financial issues, hitting team resolution targets by 15%.

Sales and Social Media Moderator - Mategoo Travel Agency Jul 2024 - Sep 2024

- Exceeded monthly agency revenue goals by 115% through high-impact client negotiation and persuasive communication.
- Conducted detailed analytical inquiries to resolve digital customer issues, improving overall response times by 30%.

Tour Guide - Viaggio Travel Agency Aug 2022 - Sep 2023

- Coordinated high-volume corporate hotel reservations and internal trips simultaneously, boosting customer satisfaction metrics by 20%.

EDUCATION

Bachelor of Business Information Systems, Helwan University 2021 - 2024

- Grade : GPA - 3.62 || Excellence with honour

COURSES

Digitera Program, iCareer 2026

- Executing full BRD-to-engineering software workflows using Jira, Cursor AI, and Git.

Full-Stack Web Development Diploma, Route IT Training Center 2024

- Completed rigorous training architecture in React.js, Node.js, and API deployment.

DIGITAL SKILLS

- | | | |
|---------------|----------------------|-------------------------|
| • HTML5 | • TypeScript | • Mongoose ODM |
| • CSS3 | • React.Js | • REST APIs |
| • JavaScript | • Next.Js | • Express |
| • Bootstrap 4 | • Node.js | • Bcrypt |
| • jQuery | • MongoDB | • Zoho ERP Applications |
| • Redux | • JWT Authentication | • Git/ GitHub |

ACHIEVEMENTS

- Engineered a critical CRM-to-Books integration within a strict 12-hour deadline just 1 week into on-boarding, successfully delivering a complex 3-day project on time. (2026)
 - Won 3rd Place across the operation as a top KPI achiever and "Employee of the Month" (2025)
 - Ranked 1st in my cohort in the Full-Stack Diploma building over 16 complete applications. (2024)
 - Surpassed monthly agency sales targets by 115% through strategic client negotiation (2024)
 - Secured an A+ grade on my graduation project by executing a real-world digital solution. (2024)
-

INTERNSHIP

Job Placement Training Program - EFE

Jul 2024 - Aug 2024

- Mastered professional presentation delivery and advanced client negotiation frameworks.

Entrepreneurship and financial literacy - EG bank

Nov 2022 - Dec 2022

- Applied sales negotiation techniques to evaluate project profitability and startup business models.

Skills Development - UNICEF , Egypt

Oct 2021 - Dec 2021

- Tackled complex case studies utilizing analytical problem-solving within cross-functional teams.

Entrepreneurship - CIB

Aug 2021 - Oct 2021

- Studied commercial banking structures, business creation strategies, and modern financial products.
-

PROJECTS

- **Health Guard & Dashboard:** Led a 5-developer team through the full SDLC to engineer a secure healthcare application and internal RBAC admin dashboard using React.js and .NET Core, integrating JWT security and live financial auditing pipelines.
 - **FreshCart E-Commerce:** Developed a full-featured e-commerce ecosystem leveraging React.js and Context/Redux, integrating a robust product discovery grid and secure Stripe API payment workflows.
 - **Production RESTful API Suite:** Engineered a scalable suite of backend APIs (E-Commerce, Job Search, Task Management) using Node.js, Express, and MongoDB with secure JWT/Bcrypt authentication.
-

COMPETENCIES

- **Analytical Problem Solving:** Skilled at conducting detailed inquiries to identify root causes and execute rapid, data-driven technical solutions under pressure.
- **Deadline-Driven Project Management:** Able to leverage strict time management skills to prioritize tasks and deliver complex integrations on time.
- **Flexible in Dynamic Environments:** Skilled at balancing sharp multitasking abilities to adapt instantly to new technical workflows and sudden organizational shifts.
- **Achieving Goals Through Teamwork:** Able to collaborate with cross-functional teams to improve overall operational performance and maximize project outcomes.
- **Continuous Self-Education:** Driven to master new tools rapidly through independent learning while consistently delivering meticulous, detail-oriented work.
